

Monday, October 26

AM SESSIONS

Plenary - Round Table Report

OE 8:00-8:20 J Hall / R Fowler
8:20-8:30

Moderators - B Kavanagh / D Scales

Report from the CCCF Round Table on β -Blockade in the ICU
Questions from the Floor

Sepsis - Epidemiology to Therapy

OE 8:30-8:50 A Kumar
8:50-9:10 M Levy
9:10-9:30 T Thompson
9:30-9:50 J Marshall
9:50-10:00

Moderators - C Durbin / K Laupland

Epidemiology of Septic Shock in Canada
PIRO: Are we any closer?
Should APC be used, abandoned, or studied for septic shock?
30 Years of Sepsis Trials
Discussion

Rehabilitation from Critical Illness

OW 8:30-8:50 M Herridge
8:50-9:10 S Magder
9:10-9:30 J Hall
9:30-9:50 D Needham
9:50-10:00

Moderators - S Mehta / Y Skrobik

Rehabilitation after Critical Illness - Scope of the Problem
Muscle Function in Critically Ill Patients
Using Early PT/OT in the ICU
Technology to Improve Physical Rehabilitation in ICU
Discussion

Clinical Research to Clinical Practice **Moderators** - N Adhikari / J Vincent

SE 8:30-8:50 G Rubinfeld
8:50-9:10 A Garland
9:10-9:30 M Levy
9:30-9:50 P Hebert
9:50-10:00

What's up with all the negative trials?
EBM: Why Good Studies Turn Out Wrong
Using Evidence to Guide Practice. Is it our responsibility?
Clinical Research: A Roadmap for Canada
Discussion

10:00-10:30

Nutrition Break in the Exhibit Hall**H1N1 Pandemic**

OE 10:30-10:50 A Morris
10:50-11:10 G Dominguez
11:10-11:30 R Fowler
11:30-11:50 A Kumar
11:50-12:00

Moderators - T Stewart / S Lapinsky

Influenza Critical Illness - ID Perspective
H1N1 Experience in Mexico City
H1N1 Critical Illness: Clinical Observations
H1N1 Critical Illness: Pathological Observations
Discussion

Steroids - 2009 Update

OW 10:30-10:50 K Menon
10:50-11:10 Y Arabi
11:10-11:30 B Cuthbertson
11:30-11:50 D Annane
11:50-12:00

Moderators - M Herridge / B Cuthbertson

Final Results: The Pediatric Adrenal Insufficiency Study
Adrenal Dysfunction in Sepsis - More than Cortisol Deficiency
Steroids and Etomidate
Do we need to add fludrocortisone?
Discussion

It's Hard to Make Predictions - Especially About the Future **Moderators** - J Granton / O Gajic

SE 10:30-10:50 D Scales
10:50-11:10 A Turgeon
11:10-11:30 D Zygun
11:30-11:50 O Gajic
11:50-12:00

Predicting Outcomes in Hematologic Malignancy
Predicting Outcome in TBI
TBI: Does prognostication influence outcome?
Prognosticating at the Bedside in ARDS
Discussion

Plenary - RCT

OE	12:00-12:15	C Parshuram
	12:15-12:20	A Garland
	12:20 -12:30	
	12:30 -1:30	

Moderators - T Evans / S Lapinsky

Resident Scheduling Study
Editorial Comment
Questions from the Floor

Lunch Break

PM SESSIONS - Monday, October 26

Mechanical Ventilation I

OE	13:30-13:50	C Durbin
	13:50-14:10	A Esteban
	14:10-14:30	D Henzler
	14:30-14:50	K Bosma
	14:50-15:00	

Moderators - N Ferguson / S Epstein

Effects of 'Normal' Tidal Volume on Normal Lungs
Ventilating the Obese Patient
Spontaneous Breathing: Earlier is Better
Proportional Assist Ventilation (PAV)
Discussion

ICU Quality

OW	13:30-13:50	C Martin
	13:50-14:10	A Nathens
	14:10-14:30	D Needham
	14:30-14:50	G Rubenfeld
	14:50-15:00	

Moderators - T Sinuff / D Needham

Preventing VAP and CLI: The Canadian ICU Collaborative
Trauma Systems Quality & Benchmarking
Checklists to Improve Quality
Measuring Quality in the ICU
Discussion

Haemodynamics

SE	13:30-13:50	S Magder
	13:50-14:10	J Granton
	14:10-14:30	J Vincent
	14:30-14:50	Y Arabi
	14:50-15:00	

Moderators - A Doctor / S Majder

Heart Lung Interactions
Pulmonary Vasodilators
Dopamine vs Norepinephrine: Is one drug superior?
Abdominal Perfusion Pressure in Cirrhosis
Discussion

Saudi Critical Care Society Session I

SAB	13:30-13:50	A Al-Shimemeri
	13:50-14:10	Z Memish
	14:10-14:30	Y Mandourah
	14:30-14:50	S Al-Qahtani
	14:50-15:00	

Moderators - T Stewart / A Al-Shimemeri

Critical Care in Saudi Arabia: Past, Present & Future
H1N1 Epidemic: Saudi Perspective
Critical Care During Hajj
Critical Care Response Team
Discussion

Fungal Infections

SC	13:30-13:50	Y Skrobik
	13:50-14:10	A Kumar
	14:10-14:30	M Albert
	14:30-14:50	C Rotstein
	14:50-15:00	

Moderators - A Morris / M Albert

ICU Fungal Infections - an overview
Fungal Septic Shock
Candida & VAP
Combination Antifungals in the ICU
Discussion

15:00 -15:30

Nutrition Break in the Exhibit Hall

PM SESSIONS - Monday, October 26**Mechanical Ventilation II - Weaning & Separation** **Moderators** - K Bosma / T Fowler

OE	15:30-15:50	D Hess	Weaning from Mechanical Ventilation: A Practical Approach
	15:50-16:10	A Esteban	Predicting and Preventing Weaning Failure
	16:10-16:30	J Muscedere	Predicting Duration of MV
	16:30-16:50	S Epstein	Controversies in Extubation
	16:50-17:00		Discussion

ICU Organization**Moderators** - C Parshuram / M Levy

OW	15:30-15:50	O Gajic	Science of Health Care Delivery in the ICU
	15:50-16:10	A Garland	ICU Cover --- Is a 24 hour Intensivist necessary?
	16:10-16:30	A Nathens	Critical Programme - Successes & Challenges
	16:30-16:50	D Heyland	Critical Care for an Aging Population
	16:50-17:00		Discussion

Fluids**Moderators** - T Thompson / P Papadakos

SE	15:30-15:50	T Thompson	Conservative Fluids and Neurocognitive Outcome
	15:50-16:10	T Evans	Albumin as a Therapeutic Intervention
	16:10-16:30	A Fox-Robichaud	Colloids and Sepsis: Implications of VISEP
	16:30-16:50	J Vincent	New Fluid Solutions for 2009
	16:50-17:00		Discussion

Saudi Critical Care Society Session II **Moderators** - B Kavanagh / A Al-Shimemeri

SAB	15:30-15:50	Y Arabi	Critical Care Simulation and Patient Safety: The Experience in Saudi Arabia
	15:50-16:10	H Qutob	Original Research: Noise in the Intensive Care Unit
	16:10-16:30	I Qushmaq	Culture, religion and EOL in ICU
	16:30-16:50	A Alsaawi	Point of Care Critical Care Ultrasonography: The Experience in Saudi Arabia
	16:50-17:00		Discussion

CCCF-CCCS - Resident Oral Abstract Presentations **Moderators** - R Fowler / J Hutchison

SC	15:30-15:45	B Haas	Overcoming Survivor Bias in Evaluating the Impact of Transfer Following Injury
	15:45-16:00	M Hollidge	Prolonged ICU Stay after Cardiac Surgery: Are Octogenarians the Problem?
	16:00-16:15	R Khadarco	(I-FABP) a Novel Biomarker for Acute Intestinal Ischemia and Resultant Lung Injury
	16:15-16:30	O Rewa	<i>Staphylococcus epidermidis</i> Catheter-Related Bloodstream Infections and their Association with Acute Phase Markers of Inflammation
	16:30-16:45	M Sekhon	The Use of Synthetic Colloid in Critical Ill Patients with Severe Traumatic Brain Injuries
	16:45-17:00	B Yipp	TLR2 Mediates Rapid Expulsion of Nuclear DNA during Neutrophil Extracellular Trap Formation

Plenary Pro-Con: SIRS - Still a Useful Construct in 2009 **Moderators** - J Marshall / N Ferguson

OE	17:00 -17:15	T Evans	Pro
	17:15-17:20	J Vincent	Con
	17:20-17:30		Questions and Panel Discussion
