

# Save the date!

Sunday October 25 through Wednesday October 28, 2009

## critical care canada forum

**New Central  
Location!**

### **Sheraton Centre Hotel & Conference Centre**

**Toronto, Ontario, Canada**

The internationally recognized Critical Care Canada Forum delivers leading-edge science through informative and interactive sessions, dynamic speakers and industry leaders. The multi-disciplinary and international nature of the conference delegates encourages the integration of perspectives, theory, practice and innovation from Canada and around the world.

The Four Diamond Sheraton Centre provides a stately hub for the sessions, exhibits and accommodations. This new central location provides improved and convenient access to some of Toronto's finest restaurants and attractions. Book early to avoid disappointment.

The Critical Care Canada Forum provides:

- Internationally recognized speakers and world class faculty in a three day program on the most current and compelling issues
- Dynamic exhibitors showcasing leading-edge science that can be applied to your practice
- Opportunity for anyone interested in the care of acutely/critically ill patients to share knowledge across disciplines, departments and institutions
- The most significant teambuilding event in Canada's critical care community where the world's leading intensivists put the latest science into practice

**Sunday October 25:** Pre-conference program

**Monday October 26 - Wednesday October 28:** Full conference program
